

# I Can Feel the Ice Melting

## Yo La Tengo

You are so distant oh and so all alone  
You possess (ooo baby) a reputation for  
being cold (baby) Oh but lately when I look at you  
I see a trace of a smile  
Ooo I know that I see a spark of  
interest for me in your eyes  
And I'm not really worried cause. I can feel the ice melting in your heart  
I can almost feel it drip drippin'  
I can feel the ice melting in your heart  
I can almost feel it drip drippin'  
You always keep your feelings to yourself  
(Oooo ooo baby, Oooo ooo baby)  
You never share a moment with no one else  
Oh but now it's like electricity  
Every time our eyes meet  
Your resistance is weakening  
And pretty soon you will be  
My sweet baby cause. I can feel the ice melting in your heart  
I can almost feel it drip drippin'  
I can feel the ice melting in your heart  
I can almost feel it drip drippin' Your disguise is transparent and  
Baby I can see right through you  
Oooo I know that you care for me  
And lover I care for you  
So baby stop pretending cause...  
I can feel the ice melting in your heart  
I can almost feel it drip drippin'  
I can feel the ice melting in your heart  
I can almost feel it drip drippin'
