Years

Belvedere

I've taken back all those years that were broken
I've seen that all my days were more than fun
And realize that life's worth more than tokens
A passage into nature's files, the vault won't give to anyoneEvery time I watch you go
You seem much shorter this I know
You're making piles in Saturn's glass
Of memories - future, now, the past begins - past begins
Of everything I'm gonna be
The guilty, the precognitive dreams
Where are you? Where did you go?
Lost forever, we are
Despite your vision, but I won't listen
cause pessimism puts you in the ground
