

# I Wanna Live

## The Bravehearts

I see my future shuffling  
A shakey step at a time  
I got no choice but careful  
Thank God, I've done my crime  
The tools I see on TV  
Can't stand it when they fake  
A prick's a prick at any age  
Why give one a break?  
I wanna live a little bit longer  
I wanna live a little bit longer now  
I wanna live a little bit longer  
I wanna live, live, live, live, live  
The soul is in the eyeball  
For anyone to see  
I'm better than a Pepsi  
I'm cooler than MTV  
I'm hotter than California  
I'm cheaper than a gram  
I'm deeper than the shit I'm in  
And I don't really give a damn  
I wanna live a little bit longer  
I wanna live a little bit longer now  
I wanna live a little bit longer  
I wanna live, live, live, live, live  
Step up it's fight time  
Kick scratch and bite time  
Ain't talking about no more fun  
But that don't bother my bad ass none  
I wanna live a little bit longer now  
I wanna live a little bit longer  
I wanna live, live, live, live, live  
(Just a little bit longer)  
I wanna live, live, live, live, live  
(Just a little bit longer)  
I wanna live, live, live, live, live  
(Just a little bit longer)  
I wanna live, live, live, live, live  
(Just a little bit longer)  
I wanna live, live, live, live, live

(Just a little bit longer)  
I wanna live, live, live, live, live  
(Just a little bit longer)
