

My Children, My Angels

Dr. John

They tryin' to make excuses, but they
Just wanna be bad
For y'all there's a friend
Your Pa did a lotta work on hisself
You know I love you out more than anyone else
Tell me about your desires right now
Don't trip on loose wires, I'll show you how
My babies wish I never, made you blue
My children, my angels, talking to you
One is too many, billions ain't never enough
Don't take the easy road, there's no shortcut
spirit kingdom do, what we can't do for ourselves
Don't put nothin' down, without lovin' everybody else
Tell me about your desires right now
Don't trip on loose wires, I'll show you how
My babies wish I never, made you blue
My children, my angels, talking to you
Tell me about your desires right now
Don't trip on loose wires, I'll show you how
My babies wish I never, made you blue
My children, my angels, talking to you.
