

Dragon's Breath

Omen

Gaze into the valley where broken bodies lie
Watch the smoke that's rising a sign that more shall die
The beast has taken many the ashes tell the tale
Lord we ask for mercy and set out on the trail[Chorus:]Give us all sanctuary dragon's breath we fear
Shelter us from the burning dragon's breath is near
Spitting flame and fire dragon's hereSearching for a place where we can stand and fight
Death is the only trace left behind this night
From the black abyss he rumbles all the earth
With a demon kiss he claims another birth[Chorus]Oh dear lord save us all from the death, Dragon's
Breath[Chorus]
