# messiah

## Steel Prophet

We look into the skies
We're searching for a sign
Something to find we all need to find
A reason to be aliveSend us a sign
To know you'll come
Send us a sign
Your faithful's hereSend us a sign
To know you'll come
Send us a sign
Your faithful's hereThey don't believe you're here
They don't think you've come before
Your coming has been foretold
But they need something realI need a new master
Gods of old, seem no more
A crutch, I need to find
Destroy our enemiesSend us a sign
To know you'll come
Send us a sign
Your faithful's hereSend us a sign
To know you'll come boy
Send us a sign
Your faithful's hereThe stars are all set right
Alignment is in the sky
I whisper the arcane rites
The prophecy will come tonightSend us a sign
To know you'll come
Send us a sign
Your faithful's hereSend us a sign
To know you'll come
Send us a sign
Your faithful's hereSend us a sign
To know you'll come
Send us a sign
Your faithful's hereSend us a sign
To know you'll come
Send us a sign
Your faithful's hereSend us a sign
