Walls Are Tumbling

Deitrick Haddon

When I make a decision
God can so transform me with this truth
That no matter if I look to
The right, left, behind, in front of me
How destructive anything looks
And if I stay still and hear
The salvation of the Lord
God is on my side and
I'm making a decision by the blood of Jesus
See what the Lord has done for us
See what a mighty God He is
See what the Lord has done for us
See what a mighty God He is
See what the Lord has done for us
See what a mighty God He is
See what the Lord has done for us
See what a mighty God He is
The walls are tumbling
The walls are tumbling
The walls are tumbling down
So lets praise His Holy name
God's gonna disassociate you from the pain
God's gonna disassociate you from the problems
God's gonna disassociate you from your past
See what the Lord has done for us
See what a mighty God He is
See what the Lord has done for us
You gotta see what a mighty God He is
See what the Lord has done for us
See what a mighty God He is
See what the Lord has done for us
See what a mighty God He is
The walls are tumbling
The walls are tumbling
The walls are tumbling down
So lets praise His Holy name
His mercy is gonna visit you
His truth is gonna transform you
Hey, you better give God some praise

Y'all better help me out, get up
See what the Lord has done for us
See what a mighty God He is
See what the Lord has done for us
See what a mighty God He is
The walls are tumbling
The walls are tumbling
The walls are tumbling down
So lets praise His Holy name
The walls are tumbling
The walls are tumbling
The walls are tumbling down
So lets praise His Holy name
The devil is a liar, that thing is gonna be proven today
By the blood of Jesus
That thing is gonna be conquered today
That thing is gonna be defeated today
The walls are coming down
They're coming down
The walls are coming down
They're coming down
The walls are coming down
They're coming down
The walls are coming down
They're coming down
The walls are coming down
They're coming down
The walls are coming down
They're coming down
...
