

It's Gonna Be Easy Now

Kenny Rogers

My Mind is made up
I ain't gonna live this way
Gonna stop this worrying
Gonna Chase those blues away
It's been hard, but it's Gonna Be Easy Now Been sitting wide awake
Thinking about what will be
Got to make some changes
Before it gets the best of me
It's been hard, but it's Gonna Be Easy Now But what you gonna do when the well runs dry
I'll wait for the Rain to fall
What you gonna do when the crops don't rise
I don't have to work at all
What you gonna do when the creek gets dry
I'm still making up my mind
What you gonna do when the sun don't shine
I lay right down and die
And then everything will be all right My Mind is made up
Problems won't go away
Their just gonna change their shades
Gonna carry them anyway
It's been hard, but it's gonna be Easy Now But what you gonna do when the well runs dry
I'll wait for the Rain to fall
What you gonna do when the crops don't rise
I don't have to work at all
What you gonna do when the creek gets dry
I'm still making up my mind
What you gonna do when the sun don't shine
I lay right down and die
And then everything will be all right Well what we gonna do when the well runs dry
You'll wait for the Rain to fall
What we gonna do when the crops don't rise
You don't have to work at all
What we gonna do when the creek gets dry
You're still making up my mind
What we Gonna do when the sun don't shine
You lay right down and die
And then everything will be all right My Mind is made up
I ain't Gonna live this way
Gonna stop this worrying

Gonna Chase those blues away
