Anchor

Colton Dixon

My heart's a ship lost out at sea
I'm drifting further from Your reach
Worn down by the waves and wind
It comes down to sink or swim
You are the one thing that I need
This is my only hope
That You'll never let me go

I need an anchor
To hold me through the storm
I see the danger
Can't fight it on my own
I'm crying out, I'm going down
On the edge and I need You now, my Savior
I need an anchor
I need an anchor

See lightning tearing up the sky
My darkest fears are on the rise
But so is my undying faith
Cause I know You walk on waves
Speak peace be still into our lives

I need an anchor
To hold me through the storm
I see the danger
Can't fight it on my own
I'm crying out, I'm going down
On the edge and I need You now, my Savior
I need an anchor

Save our soul, save our soul, save our soul...

This is my only hope
That You'll never let me go

I need an anchor
To hold me through the storm
I see the danger
Can't fight it on my own

I'm crying out, I'm going down
On the edge and I need You now, my Savior

I need an anchor
To hold me through the storm
I see the danger
Can't fight it on my own
I'm crying out, I'm going down
On the edge and I need You now, my Savior
I need an anchor
I need an anchor
