

# Anchor

Colton Dixon

My heart's a ship lost out at sea  
I'm drifting further from Your reach  
Worn down by the waves and wind  
It comes down to sink or swim  
You are the one thing that I need  
This is my only hope  
That You'll never let me go

I need an anchor  
To hold me through the storm  
I see the danger  
Can't fight it on my own  
I'm crying out, I'm going down  
On the edge and I need You now, my Savior  
I need an anchor  
I need an anchor

See lightning tearing up the sky  
My darkest fears are on the rise  
But so is my undying faith  
Cause I know You walk on waves  
Speak peace be still into our lives

I need an anchor  
To hold me through the storm  
I see the danger  
Can't fight it on my own  
I'm crying out, I'm going down  
On the edge and I need You now, my Savior  
I need an anchor

Save our soul, save our soul, save our soul...

This is my only hope  
That You'll never let me go

I need an anchor  
To hold me through the storm  
I see the danger  
Can't fight it on my own

I'm crying out, I'm going down  
On the edge and I need You now, my Savior

I need an anchor  
To hold me through the storm  
I see the danger  
Can't fight it on my own  
I'm crying out, I'm going down  
On the edge and I need You now, my Savior  
I need an anchor  
I need an anchor
