

# All I Got

## Santigold

I should ask but don't wanna know  
How you get something for nothing at all  
Build an empire for yourself  
Don't take this personal go to hell You want it, you got it, come get it, I'll see you there  
You want it, you got it, come get it Put all I got in your way  
Put all I got in your way  
Put all I got in your way  
Put all I got in your way Why should I perspire the most  
I cut 'em down you play the post  
Make believe, live your motto  
Surround yourself with smarter folk You want it, you got it, come get it, I'll see you there  
You want it, you got it, come get it Put all I got in your way  
Put all I got in your way  
Put all I got in your way  
Put all I got in your way Put all I got in your way  
Put all I got in your way I'm here scraping away  
Still no trace of dignity (put all I got in your way)  
Crowd's out they got it hard for 'em  
So devout they'll take an eye for it (put all I got in your way)  
I live for the grim encore  
Say no more Put all I got in your way  
Put all I got in your way  
Put all I got in your way  
Put all I got in your way Put all I got in your way  
Put all I got in your way  
Put all I got in your way  
Put all I got in your way
