

# High Cool

## Blur

If you come here  
Which you sometimes do  
Don't think that  
I really want you to And if you come here  
Which you always do  
Don't think that  
I expect you to Is that all I give you  
Is that all I give you And you talk too much  
Which you always do  
Don't think that  
I really want you to And if you talk too much  
Which you always do  
Don't think that  
I really need you to Is that all I give you  
Is that all I give you Is that all I give you  
Is that all I give you
