

With My Load

Joe Weller

Yo Sometimes things are just plain wrong and you got to sort them out

Making my way down town
When I saw some kid that wanted to be Justin Bieber
Then he said to me clearly thinking that I was weaker
Your a dork mate your a loser Im a get yaa Ima use yaa
For sure I was scared but I wasn't gonna take this

So I said na mate I'm not being funny
But I really don't know what you think you are
You stand there like your mugging me right off
Ima let you know that your time is up
I'll shoot you with my load
I'll get it right in your face
And if you would like some more
Just tell us a time and place

Next that day when I had some mega difficult exam
I was struggling when I saw some random geeza raise a hand
I need some more paper cos I just used all mine up
This waste man clearly thinks hes better than us

Na mate im not being funny
But I really don't know what you think you are
You stand there like your mugging me right off
Ima let you know that your time is up
I'll shoot you with my load
I'll get it right in your face
And if you would like some more
Just tell us a time and place

After school when I went to get food with my girl
We went to a really nice place
Cos I know that's shes my world
But when we got the food I saw she was given
Six more fries then me
Its clear this kid is trying to steal my girl

Na mate im not being funny
But I really don't know what you think you are

You stand there like your mugging me right off
Ima let you know that your time is up
I'll shoot you with my load
I'll get it right in your face
And if you would like some more
Just tell us a time and place

That very day was my young brothers birthday
So he got some presents

Na mate I'm not being funny
But I really don't know what you think you are
You stand there like your mugging me right off
Ima let you know that your time is up

Let me tell you know that so many people
Think there on top of ya, mate
All I wanna say is don't ever take this
No thanks mate, outta now where B Bieber
Looking a bit too happy
Then he tried to swing But I swung out the way
Draco Malfoy saved the day

Na mate im not being funny
But I really don't know what you think you are
You stand there like your mugging me right off
Ima let you know that your time is up
I'll shoot you with my load
I'll get it right in your face
And if you would like some more
Just tell us a time and place
