

# Running To The Edge Of The World

Marilyn Manson

Remember when I took you up to the top of the hill?  
We had our knives drawn, they were as sharp as we were in love  
If God crossed us we'd take all his drugs  
Burn his money and his house down  
And wait for the fire to spread Sometimes hate is not enough to turn this all to ashes  
Together as one against all others  
Break all of your wings and make sure it crashes We're running to the edge of the world  
Running, running away  
We're running to the edge of the world  
I don't know if the world will end today  
Had no choice to erase the debt of our family  
Let you say goodbye with lips like dynamite  
Everyone turned their back, 'cause they knew when we held on tight to each other  
We were something fatal, that fell into the wrong hands  
Sometimes hate is not enough to turn this all to ashes Together as one against all others  
Break all of your wings and make sure that it crashes  
We're running to the edge of the world Running, running away  
We're running to the edge of the world  
I don't know if the world will end today  
We don't seek death, we seek destruction Death, we seek destruction  
We don't seek death, we seek destruction Death, we seek destruction  
We're running to the edge of the world  
Running, running away  
We're running to the edge of the world  
But I don't know if the world will end today  
We're running to the edge of the world  
Running, running away  
We're running to the edge of the world  
I don't know if the world will end today  
See a new begining rise behind the sun We can never catch up to it as fast as we run  
See a new begining rise behind the sun  
We can never catch up to it as fast as we run  
(We don't seek death, we seek destruction)  
See a new begining rise behind the sun  
(Death, we seek destruction)  
We can never catch up to it as fast as we run  
(We don't seek death, we seek destruction)  
See a new begining rise behind the sun  
(Death, we seek destruction)

We can never catch up to it as fast as we run
