

No One Ever Loved

[Lykke Li](#)

No one ever loved
No one ever lost as hard as I
No one ever came,
No one ever saw the crystalline
In his eyes, starry sky paradise
In his eyes
In his arms, don't leave me now
Crystalline, don't fail me now
You're the diamond in the gutter
You're the hole inside my heart
You're the one I will remember every night
Before the dawn meets the light Heaven must have known
Heaven must have laid stardust in your eyes
Shine the light
Across the hurt in my eyes, see me now
Never shines, never mind
Angel line fail right now
You're the diamond in the gutter
You're the hole in my heart
You're the one I will remember every night
Before the dawn meets the light And it kills me every time
Every star will fall right down
Yeah, it kills me every time
Every star will fall right down You're the diamond in the gutter
You're the hole in my heart
You're the one I will remember every night
Before the dawn
You're the diamond in the gutter
You're the hole inside my heart
You're the one I will remember every night
Before the dawn
Every night before the dawn
Every night before the dawn meets the light
