Black Roses

Nick Carter Green

I love you, more and more I love you
And when you go I hope you know that girl I fucking love you
I kill myslef if someone told me that I couldn't love you
I will slip over these wrists tonight,

They say our love is dangerous
But they don't know the half,
I'm stressed a lot, and I drink a lot,
so I hit your ass when I'm mad
You grab my gun and your shooting me
(lyrics im not sure but I think " hot grease all over that pan "
And throw it all in my face,
Some scars won't Erase girl

But love is all we ever we wanted,
(Lyric) can't unless if it's tainted
4 or 5 of these babies
Loss count when we made them
Just pop this pill, and pray to wake up in Vegas
