

The Workers Sing A Song Of Mass Production

Matthew Good Band

He snuck into the city
The night it had come early
She always used to say
Life's a dirty business
So why not do it while The world's in bed
The world's in bed
The world's in bed
The world's in bed And there's a fake
Part of me that comes off
So you can read
I was made
By the Taiwanese in Taiwan
But they don't like that much cause it's called Formosa He snuck into the city
The dawn it had come early
She always used to say
Life's a dirty business So just be a prick and do it while
The world's awake
The world's awake And there's a fake
Part of me that comes off
So you can read
I was made By the Taiwanese in Taiwan
But they don't like that
Like that, like that, like that,
Like that, like that, like that, like that
Well, they don't like that much cause it's called Formosa
