

Fire in the Sky (feat. Kenny Loggins)

Nitty Gritty Dirt Band

All alone in a sleepless night
Passing time with a runaway moon
Talkin' to myself
Wishing I was somewhere else It's been too long since I held you girl
Twice a thousand miles
But my heart won't beat alone
I need the love I left behind Hold back the dawn awhile
Things will all work out
Don't let this dream die There's a fire in the sky
It's like the light in your eyes
Thinkin' of you And I won't give up till you're in my arms
Never give up till what's lost is found
Won't give up on your sweet, sweet love again Now, the night is dark with diamonds
And I'm standing inside the rain
Giving up your love
Was the worst mistake I made There's a sound I hear in the distance
Seems it's calling out my name
Well, I'll pay most any price
I just hope I'm not too late Turn back the clock awhile
Things will all work out
That's what the dream is all about There's a fire in the sky
It's like the light in your eyes
Oh, it's true That I won't give up till you're in my arms
Never give up till what's lost is found
Won't give up on your sweet, sweet love Turn back the clock awhile
Things will all work out
That's what the dream is all about I see a fire in the sky
Just like the light in your eyes
Thinkin' of you And I won't give up till you're in my arms
Never give up till what's lost is found
Won't give up on your sweet, sweet love
