The Last Time

Mest

'Cuz it's the last time
I ever want to see you
It's the last time
I ever want to hear you
It's the last time
I'm getting out of this for good
And it's the last timeIf at all you taught me anything
You taught me pain and hurt
Now can you tell me
Do you ever feel guilt?
Hidden pain that you built
Inside of your heart'Cuz it's the last time
I ever want to see you
It's the last time
I ever want to hear you
It's the last time
I'm getting out of this for good
And it's the last timeWhen I think
All the thoughts come to my head
Of the last words that you said
They're stuck inside of meThen I say this won't happen to me again
Three months later you're my friend
And it's happening again, goI will not cry alone as I lie
I said, What about our past
You said, Stick it up your ass
She shut the door with those words said
Were you thinking of me
Last time you were in bed, yeahIt's the last time
It's the last time
It's the last timeI ever want to see you
It's the last time
I ever want to hear you
It's the last time
I'm getting out of this for good
And it's the last time
