Hook: Milmoe

i can get it movin fast
i can get it movin slow
anything thats in the past
anyything thats still to come
going wild
going crazy
in denile
feelin lazy
fragiule
try an taze me
walk a mile
it wont faze me
we can run
we can talk
have some fun
have a talk listen up
to the message that they taught me
cause the mission has caught me up
on whats goin down
and the thought process is rewound

Verse 1: Milmoe

we live it
we give it
exception is given
the weapon is spittin
so deep and forbidden
we make an insision
through light
like prism
we than
transmit thought with precision
we rep it

we get it
we let it
we set it off
feeling is never lost
dealing with every cause
humming is somthing thats never to silence
forever live on
keep raging like pirates
but not for the gold
always was told
the lecture from bold
wisdoms the key to the cabin that frees you from cold
stay there till you old
your humble aboad

Hook:

Verse 2: Milmoe

we rock
we roll
we drink
we fall
dont do as we're told

we're never gone fold
we're wise and we're bold
a prize to hold
these eyes of gold
them seam so cold
we hip we hop
we're never gone stop
forever gone rock
gone rise to the top
we got it on lock
we swarm like the flock
we rumble the block if you like it or not
stay on the push
the muscle is hustle
the border is first
in solving the puzzle
the muzzle wont work
we rip through the chains
we doin it over and over again

Hook: x2
