

Another's Life

Snapcase

another's life
another's life
another's life is taken
your sescent foresaken
and I don't know why
you can't prioritize
scared, helpless and weak
it's not her fault that the children won't speak
forests, animals, ourselves and now others
look ahead to our sisters and brothers
tomorrows world can't die
we've got to be the catchers in the rye
