Almost Home

Mark Erelli

(Mark Erelli)How many miles
Did we travel down that road
Searching all the while
For a place to call our own
So young and hypnotized
By the stars in our eyes
How could we have ever known
Almost home
We were almost homeHow many times
Can you go on tempting fate
'Til it sends you a sign
You can't anticipate
Now the lesson is learned
Our love has turned
>From a jewel into a stone
Almost home
We were almost homeLove never lasts
Like an old photograph
Where the colors slowly fade to shades of grey
