Moving On

Polyphonic (the Verbose)

It has got into my head
Permeates the path I tread
But I tread, I'm moving on
In a new year happy song
I can sing about the night
How my tunnel without light
Led me to the other side
Where the sky is blue
It's all I can do, to not let them ruin me
I will not let them ruin me
I will not let them ruin me, again
There is fire inside the tree
Flames of knowing kissing me
I have waited long to see, a sign from you

It's all I can do, to not let them ruin me
I will not let them ruin me
I will not let them ruin me, again
I will not let them ruin me
I will not let them ruin me
I will not let them ruin me, again
Oh ruin me, I will not let them ruin me
I will not let them ruin me, again
I will not let them ruin me
I will not let them ruin me
I will not let them ruin me, again
