Whatever You Say

Anouk

Hey hey, heyWhatever you say babe don't you know?
I'm not afraid cause i know just where to go
I'm loving you baby all the time
I know that love will find a place
for you and II know I should've called you first but I
couldn't stop myself from driving to you just to see
Your smile it makes me wanna be with you is that alright?
Boy I just cant help myself and that's the reason whyWhatever you say babe don't you know?
I'm not afraid because i know just where to go
I'm loving you baby all the time
I know that love will find a place
for you and IWell, were driving in my car the music plays
the way you make me feel it's like I'm walking on air
I'll make you believe again that lovers do stay
and every now and then we fight without walking awayOh baby, you just drive me crazy
forget the world for a while it doesn't matter
near or far, gotta have you in my arms
that is where I'll stayWhatever you say babe don't you know
I'm not afraid because I know just where to go
I'm loving you babe all the time
I know that love will find a place
for you and IBaby baby baby baby baby
Ew, baby baby baby. whew
Baby baby baby baby baby
baby baby babyAhh oh ahhh, ew hey
