Carefree

The Refreshments

Don't mean no harm, no 'cause for alarm
My hands are tied behind me
It is well known the way you've grown
So come sit down beside me
Well if I told you once, I told you once
And once is all that you neededSo just lend an ear
That's you got to hearWell I can take care of everything
And I can pick for you the songs that you sing
And the sights that you see
Now don't mind me I'm carefree"Calm down" she said lie back your head
Your voice is sounding hysterical
Your face is red and you reasoning dead
When you tell nonsensical hey now you listen here
Let me make myself clear
You're not the first to get physicalJust take your pill
And you might feel a chillWell I can take care of everything
And I can pick for you the songs that you sing
And the sights that you see
Now don't mind me I'm carefreeWell I will always keep the upper hand
And I can change your angry young man
To a fashion show with brand name clothes
I'm carefree, yeahWell I can take care of everything
And I can pick for you the songs that you sing
And the sights that you see
Now don't mind me I'm carefreeWell I will always keep the upper hand
And I can change your angry young man
To a fashion show with brand name clothes
I'm carefree, yeahWell I can take care of everything
And I can pick for you the songs that you sing
And the sights that you see
Now don't mind me I'm carefree, yeah, yeah
