

# Don't You Know

## Keb' Mo'

I don't have your number  
I don't know your name  
Don't have your picture  
In a golden frame Ooh, but when I see you  
My heart goes wild  
Feels like Christmas morning  
To a little child Don't you know  
That I've been watching you?  
Don't you know  
I've been longing for the chance? Can't you tell that I've been hoping to  
Be loving you and only you?  
Don't you know?  
Don't you know? I am only human  
Just flesh and bones  
And I got a feelin'  
That I've never known Ooh, it feels like thunder  
Not a cloud in sight  
It feels like sunshine  
In the middle of the night Now don't you know  
I've been watching you?  
Don't you know  
I'm been longing for the chance? Can't you tell  
That I've been hoping to  
Be loving you, only you?  
Don't you know? Well, maybe someday  
We will see Don't you know  
That I've been watching you?  
Don't you know  
I'm longing for the chance? Can't you tell  
That I've been hoping to  
Be loving you and only you?  
Don't you know? Don't you know?  
Don't you know?  
Don't you know?  
Don't you know?  
Don't you know?
