Skies On Fire

ACDC, AC-DC

Why dont you hang up,
Wont you back up
Will you pack up and head for higher ground,
I know you and, you know me,
Tell me what it is you want it to be
What you want to be,
What you need in me,
Hey hey heySkies on fire,
Flames burn higher,
Skies on fire,
Flames get higherI know you, now you know me,
tell me what it is you want it to be,
In the rain, in the streets,
youre amazed by all the things that you see,
Tell me what I see, hows it got to be,
Yeah yeah yeahSkies on fire,
Flames burn higher,
Skies on fire,
Flames burn higher,Hey you look in the sky, skies on fire
Look in the sky, flames burn higher,
Skies on fire,
Flames get higher,
Skies on fire,
I know you and you know me,
Tell me what is it you want to be,
Flames burn higher,
Skies on fire
