I Choose To Believe

Phillips, Craig & Dean

It didn't take long for my whole world to change
One phone call now life will never be the same
It's like I'm watching my whole world go dark
Nothing makes much sense
But still with all my heart

I Choose to believe
And never give up hope
God is good
He's in control
I'll keep the faith
I trust in His way
Even when His face is hard to see
I choose to believe

It's easy to believe when everything goes our way
But we are all gonna go threw fire to test our faith
Life hurts so much that we can hardly breathe
We're begging to know why
But it's such a mystery

I Choose to believe
And never give up hope
God is good
He's in control
I'll keep the faith
I trust in His way
Even when His face is hard to see
I choose to believe
Yea
Yea

Even when my world is shaken
Even when my heart is breaking
Even when it seems He's taken so long

I Choose to believe
And never give up hope
God is good
He's in control

I'll keep the faith
I trust in His way
Even when His face is hard to see

I Choose to believe
And never give up hope
God is good
He's in control
I'll keep the faith
I trust in His way
Even when His face is hard to see
I choose to believe
I choose to believe
Jesus, Jesus how I trust Him
How I prove Him over and over
Jesus, Jesus precious Jesus
Over grace to trust Him more
