

# My Dead Girl

## Speedy Ortiz

[Verse 1]

Better yet, better get jealous of what didn't get your name  
Better you fake the truth  
I tried to buy an aluminum toy from the booth outside the dojo  
With a ten buck coin from your old drawer  
Don't even know what you've been up to  
Since the time you said I never saw the real you  
Brain like a sphinx and a vest like a townie  
I got you, but if you ever saw me[Chorus]  
I go riding in cars but I'm not the driver  
Riding in cars, now I'm the bad girl you wanted[Verse 2]  
Pull the shades. Make the call. Get the feds crawling through the lawn  
I got smoke in my iris  
Backwater acid bath for riddle-rousing cowards  
Better me than you've ever seen  
Brain like a sphinx and a vest like a townie  
If these are my last words, guess you found me[Chorus]  
I go riding in cars but I'm not the driver  
Riding in cars, now I'm the dead girl you wanted[Bridge]  
Don't even know what you've been up to  
And the me that you knew, that was some other me  
Brain like a sphinx but got nails like a prom queen  
Stay on the bleachers, from there you can watch me[Chorus]  
Go riding in cars, but I'm not the driver  
Riding in cars, more like the dead girl you wanted  
Riding in cars and you're not the driver  
Forever and overly gone
