New Letters

Company of Thieves

I fell in love when you were brushing your teeth
Over my kitchen sink.
I have no means for distraction, no fuel that feeds the reaction
I just came all this way just to say

I really do believe this was much more then meant to be

I fell under when you were waiting for me
Over lines formed from time, what do they mean?
I have no mean for distraction, no fuel that feeds the reaction
I just came all this way just to say

I really do believe this was much more then meant to be
I really do believe in you
I really do believe in me

I wont give up, I can't give in
Can't get enough, Where to begin?
I wont give up on you, I can't give in
Can't get enough of this, where to begin?
I wont give up, I can't give in
Can't get enough, where to begin?
I wont give up on you, I can't give in
Can't get enough of this, where to begin?
Where to begin?

Lets all together, and start a cure
Lets all together, and start over
Lets all get together and start a cure
Lets all get together, and start over, over, over...
