

# You Walk Your Way

## The Isley Brothers

You've been dreaming away,  
but it's time to wake up and find me gone,  
But oohhh don't get me wrong. And now I'm drifting away  
tender years we thought would never end;  
lets pray they' ll come again  
Well, after all this time it took for us to grow cold  
There's no sign of love right now you know So you walk your way and let me walk mine  
You walk your way and let me walk mine Cause I'm use to planning my days;  
but it's time I stopped including you,  
don't you be blue.  
Cause although I'm walking away,  
there's just one wish in mind;  
to meet again, and we will my friend. Said after all this time it took for us to grow cold;  
There's no love between us girl you know. So you walk your way and let me walk mine  
You walk your way and I'll walk mine...(SHORT INTERLUDE OF BACKUP SINGING) Well, after all this  
time it took for us to grow cold  
There's no love between us girl you know.  
So you walk your way and let me walk mine  
You walk your way and I'll walk mine  
And we'll meet again, we will my friend  
And things will be much better then  
Woooowoo  
You walk your way let me walk mine  
You walk your way let me walk mine  
Ohh walk your way...
