Power & Glory

At Vance

Can you imagine, to live your life without fear
No pain just pleasure, no attack from the rear?Keep on believin', in the things that you can't see
You'll be deceivin' the crown amongst your enemy's
And in the end your dreams will come true
Just put your fears aside and trySo we sing this song that makes us feel strong
We will unite in our kingdom
In our hearts we believe that the strong will survive
Power and glory foreverSo we sing this song that makes us feel strong
We will unite in our kingdom
In our hearts we believe, that the strong will survive
Power and glory foreverIn times of darkness
When fear and anger rules the world
There's only sadness
That causes pain and makes you cryDon't stop believin', only you can find the way
You'll be receivin', the key to your destiny
And in the end your dreams will come true
Just put your fears aside and trySo we sing this song that makes us feel strong
We will unite in our kingdom
In our hearts we believe that the strong will survive
Power and glory foreverWe sing this song that makes us feel strong
We will unite in our kingdom
In our hearts we believe that the strong will survive
Power and glory foreverWe sing this song that makes us feel strong
We will unite in our kingdom
In our hearts we believe that the strong will survive
Power and glory forever
