Revolutionary Warfare

Nas

Let's go
Yeah
Ghetto children singing
Singing
See
What?
They eager to learn
How to become the next world leaders 'Bravehearts'
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Book one, strategy, tactics, techniques
Look dumb, but massively notice the weakness in all them
Gotta shoot only if necessary
Homey vest is very real if enemies carrying heavy steal
Beware the thugs who ain't scared of blood or jail time
When Aryan nations ain't having integration, we so blind
The beauty of life was when my Mom said nigga you could be Christ
I wasn't old enough to hold my dick and pee right
Jesus, what is he like? I picture him standing with diamonds on him
Little different from the way my Mommy saw him
Practice your aiming, physical training in difficult training
Test your endurance, try to keep your stamina banging
Splitting dutches up, strap up, the armies is school
Teaching smart ways to kill, I'm thinking Gandhi was a fool
But chronics a fool, got me thinking out loud, fuck it
Sleep on my drunkenness I'll blow your brains out
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
My revolution is as real as Bobby Seale's, I build
With dudes and cribs worth a quarter mill, in dix hills
For fish scale to cop guns the time come
I'll mask up and get my comrade off the bus
Fuck the beef I'll snatch your seed from Chuckie Cheese
And feed him to the rats in the back of the P's
Black fatigues and [Incomprehensible] on the sofa

50 inch flat screen Louie Vitton holdsters
My motions don't appeal to repel at divisions
I did it strong for 7 long years in prison, fuck the system
I'm like a modern day Hitler
Black gorilla, crip and blood in one nigga
Only killas know my face
I beat a case for shooting at the police, nigga, the name Lake
Though simultaneously the street revolution
21 gun salute the new Huey Newton
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Teach y'all women how to hold the family down
In case something happens to his fathers
Protect the children, grab revolvers
The women plays important part of our life force
So what we fight for, my heart goes to you beautiful wife in war
And listen more talk less, watch all and trust none
Demand your respect and be ready to die for what you believe in
And ride all the time not just when convenient
Justice and freedom, wisdom and understanding
We the lost children of Israel in this western world region
You ain't a man you a coward
If you can't support the girl you put a seed in
Strong rule the weak but the wise rule the strong
It's more to a war than just getting it on
Conceal your form, cover your tracks
Stay prepared I don't care if no one's spared
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
Revolutionary warfare is all fair, loving war for the cause
I gotta take you off here
