Gold

Lamb

Stay with me forever and a day
If I could be near you for a lifetime
I'd never want for anything
Hearing your voice is like icicles down my spine
I'm touching your warm skin
Starts electrical storms through my mindYou put a strength in me
I knew somethin' was missin'
Just take me everywhere you go
This girl's in heavenFeelin' this way about someone like you
Couldn't be clearer or dearer or so overdue
So sure, so pure
So much what I was lookin' for
Here you are fillin' up my life, my lifeYou put a strength in me
I knew somethin' was missin'
Just take me everywhere you go
This girl's in heavenLife is light and everything around you when you ask why
Everything I touch is gold
Couldn't be a better place to be then just around you
No no no no no no noYou put a strength in me
I knew somethin' was missing
Just take me everywhere you go
Oh oh oh oh ohYou put a strength in me
I knew something was missing
Just take me everywhere you go
This girl's in heaven
