

# We Three

Charlie Spivak

Every Sunday I will go down to the bar  
And leave him the guitar  
You say you want me  
I want another  
Say you dream of me  
Dream of your brother  
Oh, the stars shine so suspiciously  
For we three  
You said when you were with me  
That nothing made you high  
We drank all night together  
And you began to cry so recklessly  
Baby, please don't take my hope away from me  
You say you want me  
I want another, baby  
You say you wish for me  
Wish for your brother  
Oh, the dice roll so deceptively  
For we three  
It was just another Saturday

And everything was in the key of a  
And I lit a cigarette for your brother  
And he turned and heard me say so desperately  
Baby, please don't take my hope away from me  
You say you want me  
I want another  
You say you pray for me  
Pray for your brother  
Oh, the way that I see him  
Is the way I see myself  
So please stand back now  
And let time tell you  
Oh, can't you see  
That time is the key  
That will unlock the destiny  
Of we three?  
Every night on separate stars  
Before we go to sleep we pray so breathlessly

Baby, please don't take my hope away from me
