

Tight White Wife Beater (Acoustic)

Keith Anderson

Tight white wife beater on her
I gotta be honest
It's the first thing I noticed
I worked all day and night
'til I finally got her number
I think I'm gonna call her I think she said that she was born way up in St Paul
Or down in Albuquerque, I really don't recall
And I'm sure we might have even talked about the weather
And all the things that matter
But all that I remember is that
Tight white wife beater on her
I gotta be honest
It's the first thing I noticed
Tight white wife beater on her
Cute little figure
It's all I can remember
All I can remember All my friends tell me that we really connected
That I sure had her laughin'
But I just don't recollect it
They said I even had us talkin' 'bout a big ring
Wedding bells and babies
But all that's in my memory is that
Tight white wife beater on her
I gotta be honest
It's the only thing I noticed
Tight white wife beater on her
Pretty little figure
It's all I can remember
Yeah Ooohh all I can remember
That's all I can remember
That's all I remember Tight white wife beater on her
I gotta be honest
It's the only thing I noticed
