Feeling Feeling

Linda Lewis

I don't know the meaning, I just feel the feeling
I don't know the meaning, I just feel the feeling
I don't know the meaning, I just feel the feeling
I just feel the feeling
And I love youAll I really want to touch
Is a soul, so very much
That's all I really want to touch
And all I really, really, really want to taste
Is a little of the cosmic race
That's all I really want to taste (feeling, feeling, feeling)With every one of my six senses
You know the news is good
Now say yes to the present and the future tenses
Say yes, and I know I couldAll I really want to touch
Is a soul, so very much
That's all I really want to touch
(feeling, feeling, feeling, feeling)
And all I really, really, really, really want to hear
Is your voice just like a canyon clear
That's all I really want to hear (feeling, feeling, feeling)I want to share the same space with you
I want to bear your children
'Cause I got faith in the human race
And tomorrow is for giving, oh...I don't know the meaning, I just feel the feeling
I don't know the meaning, I just feel the feeling
I don't know the meaning, I just feel the feeling
Feel the feeling, feel the feeling
Feel the feeling, feel the feeling
I don't know the meaning, I just feel...
And I love you, yes I do.
