In Memory Capsule

Cut Copy

You say you're a refugee of the long term loving scene
As you stole your kiss from me, but how different could I beTo the others, you've been hating
Broken lovers, but it's all over now
All the others, you've been hating
Broken lovers, but it's all over now
Fallen loveCan you feel it
Can you feel it's burning in our minds
Just believe it
Just believe in it once in your lifetime
Can you feel it
Can you feel it's burning in our minds
Just believe it
Just believe in it once in your lifetimeYou say I'm the reckless one
So you shy away from love
But I know how long you gonna run
From the things that you want in lifeAll the others, you've been hating
Broken lovers, but it's all over now
Fallen loveCan you feel it?
Can you feel it burning in our minds?
Just believe it
Just believe it once and a lifetimeCan you feel it?
Can you feel it burning in our minds?
Just believe it
Just believe it once and a lifetimeFallen love?
Fallen love?Can you feel it
Can you feel it's burning in our minds
Just believe it
Just believe in it once in your lifetime
Can you feel it
Can you feel it's burning in our minds
Just believe it
Just believe in it once in your lifetime
