Last One Standing

Cheryl Cole

(Verse)
I'm lucid I'm alive
I can see with brand new eyes
And I find that my mistakes
Are shaping my destiny
(Pre-Chorus)
Go walk that walk
Yeah you know who you are
You gotta talk that talk
Leave them tears at the door
There's no looking back
Hey there beautiful girl
You got it, you got it
(Chorus)
No matter what they say
How they make me feel
If they're turning me away
Or down
Dow-down
Who cares what they believe
Even if it hurts
I'mma be the one
The last one standing
Keep the beat and the vibe
Keep your words going
I don't talk that talk
The last one standing
Start a rumour
Take a bite
Middle finger in the air
I walk that walk
The last one standing
(Verse)
If they told you ,you were wrong
To be just who you were born
Tune out the lies
Because it's your time
Sooner or later they're gonna fall
(Pre-Chorus)

Go walk that walk
Yeah you know who you are
You gotta talk that talk
Leave them tears at the door
There's no looking back
Hey there beautiful girl

You got it, you got it
(Chorus)
No matter what they say
How they make me feel
If they're turning me away
Or down
Dow-down
Who cares what they believe
Even if it hurts
I'mma be the one
The last one standing
Keep the beat and the vibe
Keep your words going
I don't talk that talk
The last one standing
Start a rumour
Take a bite
Middle finger in the air
I walk that walk
The last one standing
Talk that talk
Walk that walk
Talk that talk talk talk
Talk that talk
Walk that walk
Talk that talk
Walk that walk
(Chorus)
No matter what they say
How they make me feel
If they're turning me away
Or down
Dow-down
Who cares what they believe
Even if it hurts
I'mma be the one
The last one standing
Keep the beat and the vibe

Keep your words going
I don't talk that talk
The last one standing
Start a rumour
Take a bite
Middle finger in the air
I walk that walk
The last one standing
