Regular Boys

Iva Davies / Robert Kretschmer
---
we live in a little kingdom
we live in the big bad world
we're just the thing
the regular boys
and we're one in a million
and we like the way we are
this is not a beautiful party
this is just the big bad world
the next big thing
the regular boys
and we're one in a million
and we like the way we are
boys
boys
boys
ooh shoulder to shoulder
ooh gotta stick together
I got the girl if I can get the money
could fall in love with a regular girl
that's no big deal for a regular boy
and we're one in a million
and we like the way we are
that's no big deal for a regular boy
and we're one in a million
and we like the way we are
we live in this animal kingdom
we live in the big bad world
but who wants to know
the regular boys
boys
boys
boys
