

# Take Your Time (B-Side Single Version)

## Lynyrd Skynyrd

Well, my poor, broke mama told me  
When I was twelve years old  
Said, you eatin', talkin' 'nare too fast  
There's one thing you should know  
Should take your time, my sweet baby  
Take your time, my blue eyed son  
Well, you might never have his money  
But you won't miss no rich man's fun Yeah, I could never give you money, honey  
I could never buy you clothes  
But the way them women look at you  
Some day you should have both  
If you take your time, my sweet baby  
Take your time and love 'em slow  
And if you play your cards right, now  
You won't never wait no more Yeah, well the ladies like the diamonds  
They like their brand new clothes  
But I was blessed with plenty of  
The thing they love the most  
I take my time with the ladies  
I take my time, and I love them slow  
And since I turned thirteen, Lord  
I ain't never wait no more Yeah, I could never give you money, honey  
I could never buy you clothes  
But the way these schoolgirls look at you  
Someday you gonna have both  
Take your time, my sweet baby  
Take your time, my blue eyed son  
Well, you might never have his money  
But you won't miss no rich man's fun
