Always Sing a Love Song!

Fred Ellis

Always Sing A Love Song(Chorus)
Whenever I sing a song it will always be a love song
A song so loving and true that everyone will want to
Sing along
The type of song that I love to sing
The type of song that gets my heart to ring
Ill remember it for all life long
I will always sing a love song!(Verse)
I will always sing a song that brings people together
A song that make people look at themselves in a world
wide mirror.
Let them see themselves when they are wrong
When people just cant get along
I will sing so loud and strong
I will always sing a love song.(Chorus)(Verse)
When the word of love is in a song its in your soul
Forever the sound of the word makes it sound so
Much stronger as it comes out in a song the
Rhythm rhyme make you sing along it will sound
so loud and strong you will always sing a love song.(Chorus)(Bridge)
Song a love with me I will sing a love song with you(Chorus)
Whenever I sing a song it will always be a love song
A song so loving and true that everyone will want to
Sing along
The type of song that I love to sing
The type of song that gets my heart to ring
Ill remember it for all life long
I will always sing a love song!
