Shine

Alexi Murdoch

I wonder why
We are the way we are
Yes I wonder why
We are the way we are
And why

We only love each from afarThis is how we are fighting

This is how we are fighting

Time

TimeYou spend your days
Watching the door

Yeah you spend your whole life waiting

But you don't know what for

You have everything you need right here Still you want moreOh this is how we are fighting

This is how we are fighting

Time

TimeWell I didn't come here

Looking for a soul

And I'm tired of watching dust

Collecting on a bowl

I'm a spirit trying to be human

I'm just a spirit trying to be humanBut I'm thinking this is how we are fighting

This is how we are fighting

Time

TimeYou hold on to yourself

You're afraid that you might

Get left behindAnd so you hide your eyes

You're afraid that the light

Will make you blindBut it's time

It's time to shineYes it's time to believe in what you know

Time to believe in what you know

Time to believe in what you know

And you don't need strength to be strong

Time to believe in what you know

No you don't need strength to be strong

Time to believe in what you know

Time to believe in what you know

Time to believe in what you know

time to believe in what you knowTime to believe before you go
