

Take It with Me

Sister Hazel

I've painted and I've fixed up
Every inch of this old truck
I work late every night for months
Wish I could take it with me when I go
Got good friends I hang around
Familiar streets that I drive down
I've got history in this town
Wish I could take it with me when I go, oh, oh It's gonna be great inside them pearly gates
Oh oh, oh
There's a few things of mine don't wanna leave behind
Wish I could take em with me when I go, oh, oh This old guitar was my old man's
He played it in a country band
I'd sure love to put it back in his hands
Wish I could take it with me when I go Oh, oh, oh
It's gonna be great inside them pearly gates
Oh, oh, oh
There's a few things of mine don't wanna leave behind
Wish I could take em with me when I go, oh, oh
