Kicking

OSI

Four times
Last night
I was on the visitor's side
And I know you felt it
Deep end
Three A.M.
And if it rings again
I think I'm gonna break it
Again again

Don't start telling me
Love is a symphony
Point that phone at the floor
Sure
You can fire anyone else in our neighbourhood
Haven't we've been through this before?

That's my bedroom door you're kickin'
Kickin'
Kickin'
Kickin'

For star sanity
Trapped on a memory
Trapped under water and coal
We drift like refugees
Tossed 'round-roughly
And scream at the border control
It's easy

Just start kickin'
Kickin'
Kickin'
Kickin'

Don't start telling me love is a symphony
Don't start telling me love is a symphony
Don't start telling me love is a symphony
Don't start telling me love is a symphony
