Selotape

Cyclefly

Verse
Catch me, catch me,
As I glide right through this bleak oasis.
Match me, match me,
To the face you held so dear within you.
Wake me, wake me,
Won't be long before you change direction.
Won't be long before you change direction.
I've watched you slide, I've watched you slide.Chorus
Selotape these empty eyes and,
See behind the walls you hide the,
Shock might blow your paradise,
The shock might blow your paradise away.Verse
Catch me, catch me,
As I glide right through this bleak oasis.
Trap me, trap me,
In a room with no existing fear.
Wake me, wake me,
Won't be long before you change direction,
Won't be long before you change direction.
I've watched you slide, I've watched you slide.Chorus
Selotape these empty eyes and,
See behind the walls you hide the,
Shock might blow your paradise,
The shock might blow your paradise away.Repeat x 2
