All The While

Boyce Avenue

I don't know what made us lose our way
We said some things we thought we'd never say yeah
It never did come easy
I always fought for what felt right
Cause you're the one I want here in my life
Yeah
Hold on
All the world is thinking about now
It's all what goes to see how this works out
We just need a place where we can hide
Try and find some reason in our lives
yeah
You know it never did come easy
I keep on doing what feels right
Cause you're the one who i need here in my life
Hold on
All the world is thinking about now
It's how were gonna see how this works out

Lets go of what you're fearing
Hold on to what you're losing
Cause I can't do this on my own
No I can't do this on my own
Yeah
Hold on
All the world is thinking about now
It's how were gonna see how this works out
Let go of what you're fearing
Hold on to what you're losing
Cause I can't do this on my own
I see the beauty within
Don't wanna lose you again
Cause that's the pain of letting go yeah
All the world is thinking about now
Oh oh yeah
It's how we're gonna see how this works out
Oh ohhh
