

# Birds

## Gustafer Yellowgold

I have an agreement with birds  
Not the easiest deal ever heard  
If I tell them secrets I have learned  
Theyâ€™ll teach me to sing without words

A lot of people never touch birds  
Disease! And dirty, weâ€™ve learned  
But Iâ€™m always shaking hands with the birds  
Iâ€™ve never caught any germs

All they want, is to know how we live so long  
Is there a certain song they must learn?  
There was that part, plus, they wanna learn to trust  
I said, â€œGive it a bit, it can be doneâ€•

Every time you see a dead bird  
Do you wonder how he fell to the earth?  
Did he get what he needed from the world?  
Did he ever love? Did it hurt?

All they want, is to know how we live so long  
Is there a certain song they must learn?  
There was that part, plus, they wanna learn to trust  
I said, â€œGive it a bit, it can be doneâ€•

Iâ€™m keeping my promise to the birds  
Not the easiest deal ever heard  
If I tell them secrets I have learned  
Theyâ€™ll teach me to sing without words
