Golden Ball

Stereolab

To accentuate
Put against the uniform that fit
Deep into the ball of which it's part
The only way it can communicateTo accentuate
What we have in common
We have nothing common
That can illuminate fragmentsPut against the uniform that fit
Deep into the ball of which it's part
The only way it can communicateAnd so divisions open words
What is above, what is below
And in amongst the language
An energy can end itWhat we have in common
We have nothing common
That can illuminate
The way to communicateWithin the only
(Viable sun?)
The only
(Guidable sun?)
The uniforms
Golden ball
(Album)The only
(Viable sun?)
What we have in common
We have nothing common
WithinIt can illuminate within
To illuminate
To accentuate
To illuminate
To accentuate
IlluminateFrom visible to invisible into
That illuminates each fragment of the screen
Put into the ball of which it's part
ObserveThere's no above, there's no below
Two
The only
