Let's Get Right

Christopher Williams

Leave a message at the tone
Yo, pick up the phone, it's me
Pick up the phone
You heard meOh, oh, oh, oh, yeah, yeah, yeah
Oh, oh, yeah, honey, sugar, yeahBaby, what's going on
I know you're home, pick up the phone
Lately I've been acting strange
I'm so sorry, please listen to meI get that feeling when I look in your eyes
I get emotions that I can't hide
Girl, your all that I need
Baby, please just believe that it's right tonight, yeah, yeahLet's get right
I want you so much
Let's get right
I think I love youLet's get right
See, I don't wanna do you wrong
Can you understand, oh baby, oh yeahNow you know how hard it is for a man to make it
And I'm trying to do the best that I can
Baby, I know I was wrong
I'm so sorry, please forgive me'Cause I can't live without you, I would never doubt you
Forever we'll stay together, yeah
I could never see, I could never love
Nobody but you for meLet's get right
Yeah, I need your love, yeah
Let's get right
I think I love you, oh, yeahLet's get right
I don't wanna, I don't wanna lose your love
Can you understand that
I love, I love, I loveI love you, baby, let's get right
I love you, baby, let's get right
I love you, baby, let's get right
That's all and me, oh girlYou are the sunshine of my life
You make happy daysLet's get right
Let's get right, let's get right
Let's get right
I need your love, babyLet's get right
And I don't wanna, never lose your love
Oh yeah, oh yeahLet's get right
Let's get right tonight
Let's get right

Everything will be alrightLet's get right
Let's get right tonight
Everything will be alrightLet's get right
Let's get right tonight
Let's get right
Everything will be alrightLet's get right
Let's get right tonight
Let's get right
Everything will be alrightLet's get right
Let's get right tonight
Let's get right
Everything will be alrightLet's get right
Let's get right tonight
Let's get right
Everything will be alrightLet's get right
Let's get right tonight
Let's get right
Everything will be alrightLet's get right
Let's get right tonight
Let's get right
Everything will be alrightLet's get right
Let's get right
Let's get right
Let's get right
